

B1.3 Licenced Aircraft Maintenance Engineers (LAME)

Pacific Crown Helicopters is a specialist Airbus Helicopters and Safran Helicopter Engines Maintenance Centre on Queensland's Sunshine Coast. We are a small team of dedicated professionals and operate from a purpose-built facility with easy road access and free onsite parking.

We are continuing to experience significant growth and are looking for Mechanical Aircraft Maintenance Engineers to join our team.

Favourable Qualifications and Attributes:

- CASA Australia (or equivalent) Part 66 B1.3 Mechanical Aircraft Engineer Licence
- Formal training/Trade Certificate in Aircraft Maintenance Engineering
- Must have formal work rights in Australia
- Experience with Airbus Helicopters
- Airbus Helicopter Type rating
- Own transport and a valid drivers licence
- Aviation ASIC security card (or able to obtain)

A competitive salary along with career development and further training is on offer, we also offer flexible work hours, schedules and relocation packages can be negotiated.

Please submit your current resume and a cover letter stating how you comply with the above requirements. Please note only qualified persons are being sought, we are not seeking apprentices for these positions.
